

UNIT-I

1	HTML stands for?					[A]		
	A)	Hyper Text Markup Language	B)	High Text Markup Language	C)	Hyper Tabular Markup Language	D)	None of these
2	Which of the following tag is used to mark a beginning of paragraph?					[C]		
	A)	<TD>	B)	 	C)	<P>	D)	<TR>
3	HTML tag for the largest heading is					[B]		
	A)	<head>	B)	<h6>	C)	<heading>	D)	<h1.>
4	attribute of <form> tag					[C]		
	A)	Method	B)	Action	C)	Both (A) & (B)	D)	None of these
5	Tags tell the web browser					[B]		
	A)	How to organize the page	B)	How to display the page	C)	How to display message box on page	D)	None of these
6	WWW is based on which model?					[B]		
	A)	Local-server	B)	Client-server	C)	3-tier	D)	None of these
7	What are Empty elements and is it valid?					[B]		
	A)	No, there is no such terms as Empty Element	B)	Empty elements are element with no data	C)	No, it is not valid to use Empty Element	D)	None of these
8	Which of the following attributes of text box control allow limiting the maximum character?					[C]		
	A)	size	B)	len	C)	maxlength	D)	all of these
9	Web pages start with which of the following tag?					[C]		
	A)	<Body>	B)	<Title>	C)	<HTML>	D)	<Form>
10	HTML is a subset of					[B]		
	A)	SGMT	B)	SGML	C)	SGMD	D)	None of these
11	Which of the following is a container?					[D]		

	A) <SELECT>	B) <BODY>	C) <INPUT>	D)	Both (A) and (B)
12	The property is mostly used to remove underline from links				[C]
	A) Text-trans	B) Text transformation	C) Text-decoration	D)	Text-deco
13	_____property can be used to Increase or decrease the space between words				[B]
	A) space	B) Word spacing	C) Word Link	D)	Both b and c above
14	To specify table border in CSS, _____property is used				[D]
	A) tbl-border	B) table-border	C) tborder	D)	border
15	What is CSS Float?				[C]
	A) allows other element to wrap around an element	B) element can be pushed to the left to right	C) both a and b above	D)	element can be pushed to any direction
16	Which of the below is the correct way to set a font size?				[C]
	A) h2{font-size:200%;}	B) h2{font-size:200px;}	C) both a and b above	D)	h2{fontsize:200;}
17	The _selector is used to specify a style for a single, unique element				[A]
	A) Id	B) class	C) text	D)	Bit
18	The web standard allows programmers on many different computer platforms to dispersed format and display the information server, these programs are called				[A]
	A) Web Browsers	B) HTML	C) Internet Explorer	D)	None of these
19	Which of the following is a Valid Name?				[A]
	A) <_person>	B) <1.23 person>	C) Both (A) and (B)	D)	None of these
20	Symbol used at the beginning of the HREF text is				[A]
	A) #	B) \$	C) &	D)	^
21	What is the correct HTML for adding a background color?				[C]

	A)	<background>yellow<Background>	B)	<body color = "yellow">	C)	<body bg color = "yellow">	D)	<body bg ="yellow">
22	What tag is used to display that picture							[C]
	A)	picture	B)	image	C)	img	D)	src
23	Tag that is used to make the text bold							[A]
	A)		B)	<dar>	C)	<black>	D)	<emp>
24	Tags and test that are not directly displayed on the page are written in section							[B]
	A)	<html>	B)	<head>	C)	<title>	D)	<body>
25	what should be the first tag in any HTML document ?							[C]
	A)	<head>	B)	<title>	C)	<html>	D)	<document>
26	Can the element <First> be replaced with <first>							[B]
	A)	No, they represent different elements altogether	B)	Both are same	C)	First is correct only	D)	first is only correct
27	Any part of the graphic that is not included in another hot zone is considered to be part of							[C]
	A)	rect	B)	point	C)	default	D)	polygon
28	Which of the tag is used to creates a number list?							[B]
	A)		B)		C)	 and 	D)	None of these
29	<INPUT> is							[B]
	A)	format tag	B)	empty tag	C)	both (A) and (B)	D)	none of these
30	The map definition file is generally stored in							[A]
	A)	CGI-BIN	B)	RECYCLE-BIN	C)	BIN	D)	All of these
31	Which of the following statements is/are true?							[C]

	A)	Hiding an element can be done by setting the display property to “none”	B)	Hiding an element can be done by setting visibility property to “hidden”	C)	Both A and B above	D)	Hiding an element can be done by setting block property to “hidden”
32	_____property specifies an image to use as the background of an element							[D]
	A)	backg-img	B)	backg-image	C)	Background img	D)	Background image
33	What is the correct HTML for adding a background color							[B]
	A)	<body color=”yellow”>	B)	<body bgcolor=”yellow”>	C)	<background>yellow</background>	D)	< body Background =”yellow”>
34	Which HTML tag is used to define an internal style sheet?							[A]
	A)	<style>	B)	<script>	C)	<css>	D)	<link>
35	The latest HTML standard is							[D]
	A)	XML	B)	SGML	C)	HTML 4.0	D)	HTML 5.0
36	The tag used to create a hypertext relationship between current document and another URL is							[C]
	A)	<ISINDEX>	B)	<A>	C)	<LINK>	D)	None
37	The text inside the <TEXT AREA> tag works like							[C]
	A)	<P> formatted text	B)	<T> formatted text	C)	<PRE> formatted text	D)	None
38	Which CSS property is used to change the text color of an element							[A]
	A)	color	B)	text-color	C)	fgcolor	D)	fg-color
39	The HTML tags are all							[D]
	A)	in lower case	B)	in upper case	C)	case sensitive	D)	not case sensitive
40	Which CSS property controls the text size?							[C]
	A)	text-size	B)	text-style	C)	font-size	D)	font-style

UNIT-II

1	What does MVC stand for?						[B]
	A)	Module-Venu-Controller	B)	Model-View-Controller	C)	Module-View-Contractor	D) Model-View-Component
2	In MVC, which component handles user input?						[C]
	A)	Model	B)	View	C)	Controller	D) Router
3	Which PHP framework is based on the MVC pattern?						[C]
	A)	Django	B)	Spring	C)	Laravel	D) React
4	What is the main purpose of the Model in MVC architecture?						[B]
	A)	Handle user input	B)	Manage the application logic	C)	Display the data	D) Manage URL routes
5	Which part of MVC architecture is responsible for rendering the user interface?						[D]
	A)	Model	B)	View	C)	Controller	D) Service
6	Which framework is well-known for using MVC architecture in PHP?						[C]
	A)	Django	B)	Express	C)	Laravel	D) Vue
7	Which is a popular JavaScript framework for Single Page Applications (SPA)						[A]
	A)	AngularJS	B)	jQuery	C)	React	D) Ember
8	Which feature is most commonly associated with Single Page Applications?						[C]
	A)	Multiple server requests per page	B)	Single server request	C)	Client-side routing	D) Server-side rendering
9	What does AngularJS primarily use for two-way data binding?						[D]
	A)	jQuery	B)	Directives	C)	Controllers	D) Scopes
10	What does Responsive Web Design focus on?						[C]
	A)	Fixed layouts	B)	Mobile-only design	C)	Fluid grids and flexible images	D) Desktop-first approach
11	What CSS framework is commonly used for Responsive Web Design?						[B]

	A)	AngularJs	B)	Bootstrap	C)	Laravel	D)	React
12	Which JavaScript framework is primarily used for building Single Page Applications?							[B]
	A)	Laravel	B)	AngularJS	C)	WordPress	D)	Django
13	In MVC, which layer interacts directly with the database?							[A]
	A)	Model	B)	View	C)	Controller	D)	Router
14	What does the Controller in MVC do?							[D]
	A)	Displays dat	B)	Updates the view	C)	Manages user input	D)	Handles requests and response
15	Which of the following is an advantage of Single Page Applications?							[B]
	A)	Better SEO	B)	Increased speed and performance	C)	More server-side	D)	Multiple page loads
16	An AngularJS, what does \$scope represent?							[C]
	A)	Server-side scope	B)	Global application state	C)	Object that joins the controller with the view	D)	None of the above
17	Which Laravel feature is responsible for routing?							[C]
	A)	Views	B)	Controlllers	C)	Routes	D)	Models
18	What is the primary benefit of using Laravel's Eloquent ORM?							[B]
	A)	Direct SQL queries	B)	ORM to map objects to database records	C)	Static pages	D)	None of the above
19	What are Blade templates in Laravel used for?							[B]
	A)	Database interaction	B)	Designing web interfaces	C)	Routing	D)	Middleware
20	Which directive in AngularJS is used for repeating a set of elements?							[B]
	A)	ngBind	B)	ngRepeat	C)	ngIf	D)	ngClick
21	Which design principle is essential for Responsive Web Design?							[B]

	A)	Single-layer architecture	B)	Separation of concerns	C)	No data validation required	D)	No need for databCases
32	What is Bootstrap commonly used for?							[C]
	A)) Server-side logic	B)	Database queries	C)	Responsive web design	D)	Writing APIs
33	Which command in Laravel creates a new controller							[B]
	A)	php artisan make:view	B)	PHP artisan make:controller	C)	php artisan migrate	D)	php artisan make:route
34	Which function in AngularJS handles client-side routing?							[B]
	A)	ngModel	B)	ngRoute	C)	ngClick	D)	ngRepeat
35	What does the term "fluid grid" refer to in Responsive Web Design?							[B]
	A)	Fixed pixel dimensions	B)	Proportional layouts that	C)	Static layout	D)	Server-side resizing
36	Which JavaScript feature is essential for building Single Page Applications?							[C]
	A)	DOM manipulation	B)	Client-server communication	C)	Asynchronous JavaScript (AJAX)	D)	Static HTML
37	In Laravel, what is the purpose of migrations?							[B]
	A)	Data binding	B)	Database schema version control	C)	User authentication	D)	HTTP routing
38	Which directive is used for form validation in AngularJS							[D]
	A)	ngValidate	B)	ngSubmit	C)	ngModel	D)	ngPattern
39	What is the default templating engine used in Laravel?							[B]
	A)	Twig	B)	Blade	C)	Handlebars	D)	Smarty
40	Which of the following is NOT a valid Laravel artisan command?							[C]
	A)	make:migration	B)	make:controller	C)	make:view	D)	make:model

UNIT-III

1	What does HTTP stand for?						[A]
	A)	HyperText Transfer Protocol	B)	Hyperlink Transfer Protocol	C)	Hypertext Transmission Process	D) Hyperlink Transmission Protocol
2	Which HTTP method is used to retrieve data?						[B]
	A)	POST	B)	GET	C)	DELETE	D) PUT
3	Which HTTP method is used to submit data to a server?						[B]
	A)	GET	B)	POST	C)	HEAD	D) DELETE
4	What is a Java Servlet?						[B]
	A)	A client-side program	B)	A server-side program	C)	A web browser	D) A protocol
5	Which package provides classes for building servlets in Java?						[B]
	A)	java.servlet	B)	javax.servlet	C)	java.http	D) javax.net
6	What does AJAX stand for?						[A]
	A)	Asynchronous JavaScript and XML	B)	Advanced JavaScript and XML	C)	Automatic JavaScript and XML	D) None of the above
7	Which method is called only once in a servlet's lifecycle?						[C]
	A)	doGet()	B)	doPost()	C)	init()	D) destroy()
8	What is the default HTTP method for a form submission?						[A]
	A)	GET	B)	POST	C)	HEAD	D) PUT
9	Which of the following is not a valid HTTP method?						[D]
	A)	OPTIONS	B)	PATCH	C)	TRACE	D) LINK
10	Which HTTP status code indicates a successful request?						[C]
	A)	404	B)	403	C)	200	D) 500

11	Which interface must a class implement to be a servlet?						[B]
	A)	HttpServlet	B)	Servlet	C)	ServletRequest	D) None of the above
12	Which method is used to send a response from a servlet?						[A]
	A)	getWriter()	B)	sendRedirect()	C)	forward()	D) include()
13	What does the init() method do in a servlet?						[A]
	A)	Initializes the servlet	B)	Processes the HTTP request	C)	Shuts down the servlet	D) None of the above
14	Which HTTP method is idempotent?						[B]
	A)	POST	B)	PUT	C)	GET	D) OPTIONS
15	What is the purpose of the destroy () method in a servlet?						[C]
	A)	Handle requests	B)	Initialize the servlet	C)	Release resources	D) Send responses
16	Which of the following HTTP methods is used to delete a resource?						[C]
	A)	GET	B)	PUT	C)) DELETE	D) POST
17	Which HTTP status code indicates that the server cannot find the requested resource?						[B]
	A)	200	B)	404	C)	403	D) 500
18	Which method is called multiple times in a servlet lifecycle?						[C]
	A)	init()	B)	destroy()	C)	service()	D) configure()
19	What is the full form of JSP?						[A]
	A)	Java Server Pages	B)	Java Standard Pages	C)	Java Servlet Pages	D) Java Secure Pages
20	Which of the following is a server-side scripting language?						[B]
	A)	JavaScript	B)	PHP	C)	HTML	D) CSS
21	In which phase is a servlet destroyed?						[C]
	A)	Initialization phase	B)	Request phase	C)	Destruction phase	D) Response phase

22	What is the use of the GET method in AJAX?						[A]
	A)	Fetch resources	B)	Delete resources	C)	Update resources	D) None of the above
23	Which of the following is not a lifecycle method of a servlet?						[C]
	A)	init()	B)	service()	C)	request()	D) destroy()
24	Which method handles both GET and POST requests in a servlet?						[B]
	A)	process()	B)	service()	C)	handle()	D) doRequest()
25	What does the HTTP status code 500 indicate?						[C]
	A)	OK	B)	Not Found	C)	Internal Server Error	D) Forbidden
26	Which of the following is used to send a request to the server using AJAX?						[A]
	A)	XMLHttpRequest	B)	HttpRequest	C)	AjaxRequest	D) ServletRequest
27	What type of content does a servlet generate?						[B]
	A)	Static content	B)	Dynamic content	C)	HTML content only	D) JSON only
28	Which HTTP method should be used for partial updates?						[B]
	A)	GET	B)	PATCH	C)	DELETE	D) PUT
29	Which of the following represents the correct sequence of servlet lifecycle phases?						[A]
	A)	init -> service -> destroy	B)	service -> init -> destroy	C)	destroy -> service -> init	D) init -> destroy -> service
30	What is a servlet filter used for?						[C]
	A)	Processing HTTP requests	B)	Handling HTTP responses	C)	Modifying request and response headers	D) None of the above
31	Which is the preferred way to communicate with a server using AJAX?						[B]
	A)	Synchronous calls	B)	Asynchronous calls	C)	Batch calls	D) None of the above

32	Which HTTP method is used to upload a file?						[B]
	A)	GET	B)	POST	C)	DELETE	D) PUT
33	What does the doGet() method do?						[B]
	A)	Processes POST requests	B)	Processes GET requests	C)	Initializes servlet	D) Destroys servlet
34	Which of these is not a part of the servlet architecture?						[D]
	A)	Servlet Container	B)	ServletContext	C)	Servlet Filter	D) ServletInitializer
35	Which object represents a servlet request?						[B]
	A)	HttpRequest	B)	ServletRequest	C)	HttpResponse	D) HttpServlet
36	Which method sends a temporary redirect response to the client?						[A]
	A)	sendRedirect()	B)	forward()	C)	include()	D) sendTemporary()
37	What is an example of a popular AJAX framework?						[A]
	A)	jQuery	B)	Bootstrap	C)	Angular	D) Django
38	Which of the following is not a valid HTTP status code?						[C]
	A)	100	B)	207	C)	610	D) 418
39	What does the service() method do in a servlet?						[B]
	A)	Initializes servlet	B)	Handles requests	C)	Shuts down servlet	D) None of the above
40	Which method is used to add headers to a response?						[B]
	A)	addResponse()	B)	addHeader()	C)	putHeader()	D) includeHeader()

UNIT-IV

1	What is the main role of Node.js?						[B]
	A)	Frontend framework	B)	Backend runtime environment	C)	Database management system	D) CSS pre-processor
2	What does NPM stand for?						[C]
	A)	Node Protocol Manager	B)	Node Packet Module	C)	Node Package Manager	D) Node Package Medium
3	What is REPL used for in Node.js?						[C]
	A)	Reading and storing data	B)	Compiling code	C)	Interactive debugging	D) Continuous integration
4	What does REPL stand for?						[B]
	A)	Repeat Evaluate Print Log	B)	Read Evaluate Print Loop	C)	Run Execute Print Loop	D) Recursive Execution Protocol Loop
5	Which terminal command is used to start a Node.js application?						[C]
	A)	npm start	B)	node run	C)	node app.js	D) node server.js
6	What is a callback function in Node.js?						[B]
	A)	Function invoked immediately after it's declared	B)	Function passed as an argument to another function	C)	Function that handles database queries	D) Function that sets timeouts
7	Which event is used to handle exceptions in Node.js?						[C]
	A)	throw	B)	exception	C)	error	D) catch
8	Which framework is commonly used with Node.js for web applications?						[C]
	A)	React	B)	Django	C)	Express	D) Laravel
9	What does Express.js help with?						[C]
	A)	Creating React components	B)	Managing databases	C)	Simplifying server-side	D) Writing SQL queries

					development		
10	In Express, which method is used to handle GET requests?						[B]
	A)	app.post()	B)	app.get()	C)	app.put()	D) app.retrieve()
11	Which of the following handles routing in Express?						[D]
	A)	URL Manager	B)	Middleware	C)	Session manager	D) Router
12	What is the default port for a Node.js server?						[B]
	A)	80	B)	3000	C)	8080	D) 5000
13	How do you create a session in Node.js using Express?						[B]
	A)	Using „session.js“	B)	Using „express-session“ middleware	C)	Using „express-router“	D) Using „http-session“ module
14	Cookies in Node.js are used for which purpose?						[A]
	A)	Data storage on the client-side	B)	Server-side logging	C)	API management	D) Database connections
15	Which method is used to set a cookie in Express?						[A]
	A)	res.cookie()	B)	req.cookie()	C)	set.cookie()	D) cookie.set()
17	How do you parse JSON data in Node.js?						[A]
	A)	JSON.parse()	B)	JSON.stringify()	C)	JSON.load()	D) JSON.convert()
18	What is the role of 'body-parser' middleware in Express?						[C]
	A)	Parsing URLs	B)	Handling session data	C)	Parsing incoming request bodies	D) Managing events
19	Which Node.js module allows you to work with file systems?						[A]
	A)	fs	B)	http	C)	path	D) system
20	How do you make a server in Node.js listen on a specific port?						[B]
	A)	app.port()	B)	app.listen()	C)	server.on()	D) server.start()

21	What is the purpose of 'nodemon' in Node.js?						[B]
	A)	Handling requests	B)	Monitoring file changes	C)	Debugging code	D) Compressing files
22	Which of the following is a core module in Node.js?						[C]
	A)	mongoose	B)	express	C)	http	D) nodemailer
23	Which method in Node.js is used to read data from a stream?						[B]
	A)	read()	B)	pipe()	C)	stream()	D) request()
24	In Express, how do you serve static files?						[A]
	A)	app.use(express.static())	B)	app.get('/static')	C)	app.static()	D) res.static()
25	What is the event loop in Node.js?						[B]
	A)	A function loop	B)	A mechanism that manages asynchronous callbacks	C)	A database handler	D) A security protocol
26	How do you handle POST requests in Express.js?						[C]
	A)	app.get()	B)	app.request()	C)	app.post()	D) app.send()
27	What is the use of middleware in Express.js?						[C]
	A)	To handle HTTP errors	B)	To serve static files	C)	To process request objects before they reach the route handler	D) To manage database connections
28	Which of the following is NOT an event in Node.js?						[D]
	A)	data	B)	error	C)	connect	D) execute
29	In Node.js, what is 'require()' used for?						[A]
	A)	Importing modules	B)	Exporting functions	C)	Declaring variables	D) Running scripts
30	Which HTTP status code represents a successful GET request?						[C]
	A)	404	B)	500	C)	200	D) 301

31	Which middleware is used for logging HTTP requests in Node.js?						[C]
	A)	body-parser	B)	cookie-parser	C)	morgan	D) session
32	Which of these is NOT a core module in Node.js?						[C]
	A)	http	B)	buffer	C)	express	D) events
33	How can you create a buffer in Node.js?						[A]
	A)	Buffer.alloc()	B)	Buffer.create()	C)	Buffer.read()	D) Buffer.make()
34	Which module provides utilities for working with file and directory paths?						[C]
	A)	file	B)	fs	C)	path	D) util
35	How do you handle errors in asynchronous functions in Node.js?						[A]
	A)	Using try-catch	B)	Using async-catch	C)	Using event handlers	D) Using error listener
36	What is the purpose of the 'res.send()' method in Express?						[B]
	A)	To send HTML files	B)	To send response data	C)	To execute middleware	D) To handle cookies
37	Which of these is true about Node.js?						[B]
	A)	It is synchronous	B)	It is single threaded	C)	It is multithreaded	D) It does not support callbacks
38	What does 'res.json()' do in Express.js?						[C]
	A)	Sends an HTML response	B)	Sends a plain text response	C)	Sends a JSON response	D) Sends a CSS response
39	How do you install a Node.js package globally?						[B]
	A)	npm install	B)	npm install -g	C)	npm install -save	D) npm install -global
40	Which of the following methods is commonly used in JavaScript to parse JSON data received from an API?						[B]
	A)	JSON.stringify()	B)	JSON.parse()	C)	JSON.convert()	D) JSON.decode()

UNIT-V

1	What is MongoDB?						[B]
	A)	A SQL database	B)	A NoSQL database	C)	A file system	D) A web server
2	Which language is MongoDB primarily associated with for manipulation?						[B]
	A)	PHP	B)	JavaScript	C)	SQL	D) Python
3	Which command in Node.js connects to a MongoDB database?						[B]
	A)	db.connect()	B)	MongoClient.connect()	C)	mongo.connect()	D) connectDB()
4	In MongoDB, what is a document?						[B]
	A)	A row in a table	B)	A collection of key value pairs	C)	A SQL query result	D) A folder
5	Which command is used to insert a document into MongoDB from Node.js?						[B]
	A)	insertRow()	B)	insertOne()	C)	addDocument()	D) insertData()
6	What is the default format of MongoDB documents?						[B]
	A)	XML	B)	JSON	C)	CSV	D) YAML
7	Which method fetches all documents in a collection in Node.js?						[C]
	A)	findAll()	B)	getAll()	C)	find()	D) retrieveAll()
8	How are collections stored in MongoDB?						[D]
	A)	In tables	B)	In schemas	C)	In documents	D) In collections
9	In Node.js, which package is most commonly used to work with MongoDB?						[C]
	A)	mysql	B)	mongoose	C)	express	D) sequelize
10	Which MongoDB method is used to delete a document?						[C]
	A)	removeOne()	B)	deleteDocument()	C)	deleteOne()	D) removeDoc()
11	Which of the following is a backend web framework?						[B]
	A)	Angular	B)	Django	C)	React	D) Vue.js
12	Ruby on Rails is primarily written in which programming language?						[B]

	A)	Python	B)	Ruby	C)	JavaScript	D)	PHP
13	Django is built using which language?							[C]
	A)	PHP	B)	Ruby	C)	Python	D)	Java
14	Which architecture does Django follow?							[C]
	A)	MVC	B)	MVP	C)	MVT	D)	MVVM
15	Which file is responsible for handling URL routing in Django?							[A]
	A)	urls.py	B)	views.py	C)	models.py	D)	admin.py
16	Which of the following is a feature of Ruby on Rails?							[A]
	A)	Convention over Configuration	B)	Configuration over Convention	C)	Event-driven	D)	Microservice architecture
17	In Ruby on Rails, what does MVC stand for?							[A]
	A)	Model-View-Controller	B)	Model-View-Class	C)	Mongo-View-Controller	D)	Model-View-Config
18	Which database is commonly used with Ruby on Rails?							[D]
	A)	SQLite	B)	PostgreSQL	C)	MySQL	D)	All of the above
19	Django automatically generates which part of the application?							[B]
	A)	Models	B)	Admin Interface	C)	Views	D)	Templates
20	What does ORM stand for in Django?							[A]
	A)	Object Relational Mapping	B)	Object Ruby Manager	C)	Open Rails Management	D)	Online Relational Module
21	Angular is developed and maintained by?							[B]
	A)	Facebook	B)	Google	C)	Microsoft	D)	Mozilla
22	Which language is primarily used to build Angular applications?							[B]
	A)	JavaScript	B)	TypeScript	C)	Python	D)	Ruby
23	Meteor is known for its integration with which framework?							[B]
	A)	Angular	B)	Blaze	C)	Django	D)	Flask

24	Which command is used to create a new Angular project?						[A]
	A)	ng new	B)	angular new	C)	ng start	D) angular create
25	What is a key feature of Meteor?						[A]
	A)	Real-time updates	B)	Static rendering	C)	Data binding	D) Template inheritance
26	Which of the following is a core concept in Angular?						[A]
	A)	Directives	B)	Models	C)	Views	D) Plugins
27	Meteor uses which database by default?						[C]
	A)	MySQL	B)	PostgreSQL	C)	MongoDB	D) SQLite
28	In Angular, two-way data binding is primarily handled using which of the following?						[D]
	A)	Pipes	B)	Services	C)	Directives	D) ngModel
29	Meteor allows for what kind of development?						[C]
	A)	Server-side only	B)	Client-side only	C)	Full-stack development	D) Static page development
30	Which file is the entry point of an Angular application?						[C]
	A)	index.html	B)	app.module.ts	C)	main.ts	D) app.component.ts
31	Which of the following is a JavaScript frontend framework?						[C]
	A)	Ruby on Rails	B)	Django	C)	Angular	D) Flask
32	What does "JS" in Meteor JS stand for?						[A]
	A)	JavaScript	B)	Java	C)	JSON	D) Java Server
33	Which of the following is true about Meteor?						[A]
	A)	It uses JavaScript for both front-end and back-end	B)	It uses JavaScript for front-end only.	C)	It uses JavaScript for back-end only.	D) It doesn't use JavaScript.
34	Angular utilizes which kind of architecture?						[B]

	A)	MVC	B)	MVVM	C)	MVT	D)	MVP
35	Which command starts a Meteor application?							[C]
	A)	meteor start	B)	npm start	C)	meteor run	D)	npm run
36	Which is NOT a feature of Angular?							[C]
	A)	Dependency Injection	B)	Directives	C)	ORM	D)	Two-way data binding
37	Which of the following is a popular JavaScript framework for building user interfaces?							[A]
	A)	Angular	B)	Django	C)	Flask	D)	Laravel
38	Which JavaScript framework is maintained by Facebook and is primarily used for building UI components?							[C]
	A)	Vue.js	B)	Angular	C)	React	D)	Ember
39	Vue.js is primarily used for:							[C]
	A)	Backend development	B)	Full-stack development	C)	Frontend development	D)	Database management
40	Which JavaScript framework is known for its flexibility and can be used to build both single-page and complex web applications?							[C]
	A)	Angular	B)	React	C)	Vue.js	D)	Ember
